

See *Something*, Say *Something...*

Health and Safety Project: Explore Academy

We are asking for student help in keeping our school a healthy and safe learning environment. By doing so, we ask that if you **SEE** something that is not in our school guidelines to **SAY** something about it. We are offering this form as a tool for you to say what you see anonymously. In using this form we are not asking your name or collecting your email address. This would be for anything you see on our school campus or on the buses to and from school.
